Aurum AU002 Autumn

Evoking the majesty and romance of star-scattered nights and tarot readings, Aurum is one of our most decadent decorative fabrics. The natural satin ground is intricately embroidered, then hand painted with lustrous gold, emulating sweeping constellations. Available in three rich colours from our new collection, this design perfectly embodies World's End's allusions to astrology and the allure of the mystical. A specialty fabric, for those in search of something truly unique.
